

SP-TOX Advance

A companion of Toxic Management

Mycotoxins are secondary metabolites produced by certain moulds / fungi. Mycotoxicosis causes less overt signs but often is associated with hidden losses due to immunosuppression, hepatic & renal dysfunction, poor health & productivity. Toxin reduces the organs function such as liver & kidney. It also negatively impacts on the poultry immune system & native defense mechanism.

SP TOX advance has an enormous surface area so it adsorbs a wide range of toxins in the intestine. It is a multi-component toxin binder specially developed as a complete solution to the Mycotoxins problem. Selected ingredients bind a wide range of various toxins present in the feed.

Key features:

- **SP TOX advance** formulated with selected high quality ingredients to perform as a broad Spectrum Mycotoxin absorbent in challenge condition.
- Its largest surface area to bind extreme and various toxins in wide range.
- The unique ingredients supports to control chemical toxicity due to pesticides and heavy metals.
- Selected silicates to adsorb both polar and dipolar Mycotoxins
- Maximizes Feed conversion and Improves overall performance
- **SP TOX advance** does not absorb vitamins, Minerals and other nutrients It reduces Mortality & Secondary bacterial diseases problem
- Protects the liver against the damage and mobilizes the fat accumulated in the liver

Benefits:

- To adsorb a wide range of mycotoxins.
- To protect and rehabilitates the liver and kidney.
- To reduce immunosuppression caused by mycotoxin.
- To Improve birds health through increased resistance to disease .
- To improve the immunity and feed intake.
- It formulated with selected high quantity ingredients to perform as a broad spectrum.
- It supports to control chemical toxicity due to pesticides and heavy metals.
- To maximize feed conversion and improves overall performance.

Composition:

High active Phyllosilicates, Integrated Tectosilicates, Montmorillonite, HSCAS , Activated Carbon (Coconut shell based) , Yeast cell wall derivatives (MOS), Blend of organic Acids, Phylandus Niruri, Yucca Schidigera, Buffering agents.

Dosage :

Layer and Broiler : 0.5 Kg to 1 Kg per ton of feed

Not for human, Cat & Dog

Animal Feed Supplement

THE PRODUCT IS FREE FROM CHLORAMPHENICOL, NITROFURAN, ANTIBIOTICS, MELAMINE, BY-PRODUCT OF SWINE/BOUVINE AND ANY OTHER GENETICALLY MODIFIED ORGANISM.

Manufactured & Marketed by :

No. 1/258/3, Begapalli Vilage, Begapalli – Biderguppa Road, Hosur – 635126, Krishnagiri Distict, Tamilnadu, India.
