

GUTKARE

A unique combination of spray dried probiotic for gut health

GUTKARE contain beneficial bacteria that can improve gut health in aquatic animals. They help in maintaining a healthy microbial balance in the gut, aiding digestion, and boosting immunity. A healthy gut ensures efficient digestion and absorption of nutrients from feed. This leads to improved growth rates, better feed conversion ratios, and overall enhanced performance of the aquatic animals being cultured. The gut microbiota plays a significant role in the immune system of aquatic animals. A balanced gut microbiome helps in resisting colonization by pathogenic bacteria and parasites. Probiotics and Prebiotics can promote the growth of beneficial bacteria, thus reducing the risk of disease outbreaks. It also consistently maintains aquatic animal health and contribute in better growth.

Benefits:

- Improves FCR and growth rates.
- Improves feed intake and digestibility.
- Increases the bioavailability of the feed.
- Enhances disease resistance for natural activity.
- Prevents the damage of intestinal epithelial cells.
- Uses in various metabolic paths for energy generation.

Composition:

Lactobacillus Acidophilus	: 2×10^9
Lactobacillus Casei	: 2×10^9
Lactobacillus Rhamnosus	: 2×10^9
Lactobacillus Paracasei	: 2×10^9
Corynebacterium glutamicum	: 2×10^9
Coated acidifiers	: 5%
Protease	: 6000 units
Cellulase	: 10000 units
Hemicellulase	: 2000 units
Herbal extract (Emblica)	: 2%
MOS	: 1%
Beta Glucane	: 1%

Dosage

Fish & Shrimp : 5-10 gms/kg feed or as advised by aqua consultant/expert.

Product of India

Not for human, Cat & Dog
Aquatic pond management

Manufactured & Marketed by :
